### 2.3.2 Teachers use ICT enabled tools

The college has prioritized use of ICT in teaching -learning. Preparation of e-resources in various subjects in the form of PPTs, digital material, and top resource links has created a repository of knowledge, available to students in the departments and in the library.

Staff rooms and Central library have networked internet connections. Campus is wi-fi enabled. Classes, seminars, guest lectures, etc. using LCD projectors are conducted in available science laboratory spaces, and in Seminar Hall as needed.

Faculty are enriched through training workshops on digital tools, online portals such as National Digital Library, SWAYAM, etc. and access to N-LIST consortia subscription, which facilitates teaching-learning.

Use of ICT by incorporating audio-visual material makes lessons visually interesting, positively impacting both the learning outcomes of students and their attendance.

Some teachers now use of modern methods of teaching learning, such as Google sites and Google Meet, Zoom App, Google Forms for feedback as well as evaluation and posting and receiving assignments, post educational resources and materials, etc.
