* A candidate is considered qualified if the marks secured are greater than or equal to the qualifying marks mentioned for the category for which such category certificate, if applicable, is produced along with the score card.

Organising Institute: Indian Institute of Technology Kharagpur

General Information

The GATE 2022 score is calculated using the formula:

$$\text{GATE Score} = S_p - (S_p - S_q) \frac{(M - M_q)}{(M_p - M_q)}$$

where,
M is the marks obtained by the candidate in the paper mentioned on this GATE 2022 scorecard
M_q is the qualifying marks for general category candidates in the paper
M_p is the marks of 100% of the 10 candidates who appeared in the paper (in case of multi-session papers, including all sessions)
S_p = 350, if the score assigned to M_p
S_q = 300, if the score assigned to M_q

In the GATE 2022 score sheet, M_q is 25 marks (out of 100) or 25% which ever is greater. There is no maximum or minimum deviation of marks of all the candidates who appeared in the paper.

Qualifying in GATE 2022 does not guarantee direct admission to a post graduate program in a scientific discipline. Academic institutions may conduct their own tests and interviews for final selection.

Candidate Aptitude Test in Engineering (GATE) 2022 was organized by Indian Institute of Technology Kharagpur on behalf of the National Coordination Board-GATE for the Department of Higher Education, Ministry of Education, Government of India.
