Annual Report 2021-22

STUDENT FEEDBACK

The Students feedback from Second and Third Year students of the College. The feedback form includes 10(Ten) important parameters for taking the feedback right from Teaching-Learning Academic, Curriculum, laboratory facilities, library facilities, other facilities etc. The feedback was taken from Second and Third Year students of our college, the report was made on the basis of questionnaire provided on Google form. As many as 10 questions were asked to the student on the various aspects. Total 496 responses were received from the students and same is discussed below

Feedback form Link of Google form for Student Feedback is provided below

<https://forms.gle/SEwRfjvo78pasqL26>

This Student feedback was taken from all the students of B.Sc., M.Sc., B. Com, M. Com, and B.A. of 2021-22 sessions. 496 responses were received on Google form in which 10 question were provided. All MCQ type questionnaires were made for feedback. This questionnaire was posted as Google form on WhatsApp groups of all the UG and PG students group or on their Mail IDs. Data was collected by sending Google form to the students of various courses.

Total 496 responses have been collected from the student, out of which 50% responses were from science and 44% from commerce and 6% from Arts faculty students. The graphical representation from Google form summary sheet shows the course-wise classification of student responses. 52.2% responses were received from Final Year. 25.8% responses were received from Second Year.

be determined by trial and error. Irrespective of the method used, twofold dilution series with around 10-12 dilutions up and/or down from 1 mg l^{-1} ($1 \mu\text{g ml}^{-1}$) are conventionally used for most antibacterial agents. However, the concentration range will depend on the bacterial isolates to be tested and the antibacterial agent

(A) Agar dilution • Timing 4-6 h:

- (i) Prepare MHA/MHB²⁵ medium according to manufacturer's instructions, before autoclaving. Around 25ml is necessary to pour one 15 x 100 mm petri dish to produce the required depth of 3-4 mm.
- (ii) After autoclaving (e.g., $121 \text{ }^{\circ}\text{C}$, 15 min, 1 bar), cool the medium to $50 \text{ }^{\circ}\text{C}$.
- (iii) As the medium cools down, calculate the amount of antibiotic solutions (10 , 1 and 0.1 mg l^{-1}) needed. The volumes of antibiotic and agar can also be varied depending on the number of plates to be poured. As each agar plate can be used for up to 48 tests, more than one plate might be necessary if a larger amount of isolates is going to be tested.
- (iv) Label 12 (adjusting the number if more or less than 12 different concentrations are going to be tested) sterile containers appropriately with the final antibiotic concentration. The size of the flask depends on the total volume needed.
- (v) Dilute the 10 mg ml^{-1} antibiotic stock solution 1:10 in sterile broth or water to achieve a 1 mg ml^{-1} solution.
- (vi) Dilute the 1 mg ml^{-1} solution 1:10 in sterile broth in sterile broth or water to achieve a 0.1 mg ml^{-1} solution.
- (vii) Dispense appropriate amounts of antibiotic solution into the respective containers.
- (viii) For each agar plate, add 25 ml agar (now at a temperature of $\sim 50 \text{ }^{\circ}\text{C}$) into the container, mix well (avoid bubbles) and pour 25 ml into a petri dish labeled with the respective antibiotic concentration. Use a 25-ml pipette if the container contains $> 25 \text{ ml}$ agar in situations where more than one plate with the same antibiotic concentration is going to be poured

Question wise responses (Figure in %)

Sr. No.	Questionnaire	Outstanding	Excellent	Very Good	Good	Average
1.	Your overall rating regarding teaching, learning and academic environment	23.8	20.2	29.6	21.8	4.6

rates and consequently no visible growth within the time given. Both phenomena are different from the action of a bactericidal drug, which causes irreversible damage leading to cell death.

Furthermore, even with the knowledge of the mode of action of an antimicrobial agent, the MIC value alone is a poor predictor of the efficacy of the drug *in vivo*. Factors that affect the response to therapy are far more complex and include host defense mechanisms, underlying diseases of the patients, the site of infection, and the pharmacokinetic and pharmacodynamic properties of the drug²³.

ANTIMICROBIAL TESTING:-

Broth and agar dilution are routinely used method for antimicrobial susceptibility testing. As larger volumes of antimicrobial agents are needed for agar dilution, this method is applicable to antibiotics available in ample amounts. The main advantage of the agar dilution is the option to test a large number of bacterial isolates simultaneously under exactly identical conditions. Agar dilution is not the method of choice if the susceptibility to a wide range of different antibiotics is to be tested on a smaller number of bacterial isolates. Using a micro titer format has the advantage, stored at 20 °C and can be used at the time point needed. Broth macro dilution requires large volumes of antibiotic. The modifications to avoid the possibility of the antimicrobials binding to the plastic dishes and furthermore to reduce the amount of substance need for testing, while still producing acceptable results. The substantial variations in MIC that can occur with different peptide solvents and when the incorrect type of test vessel is utilized. Some peptides can precipitate when diluted into Mueller – Hinton medium which can be avoided by adding acetic acid/BSA²⁴. Whether antimicrobial peptides require or not the addition of acetic acid/BSA has to

Action Taken Report Student Feedback (2021-2022)

Following action have been taken by the college on the basis of feedback obtained from the different stakeholder in the session 2021-2022.

1. All the teacher related points in the feedback have been discussed with all faculty in staff club meeting.
2. Some teachers are appreciated for their holistic roll accordingly and some have been given necessary suggestion to improve the overall quality of teaching learning process.
3. Teachers are advice to be sincerer and innovative in their field and college activities.
4. Non-Teachings staffs are suggested to maintain the standard of institution to achieve the goal.
5. The office staff members are advice to be more students centric in their approach.
6. Library staff members are advised to give more and more services to students and maintain the library as per student's requirement.
7. A college is further planning to enhance the numbers ICT based Tools for online teaching-learning process.
8. College is also planning to provide good laboratory facilities in respective laboratories.
9. Sports Department of the college is advice to prepare and promote more and more students to participate in inter/intra collegiate/university levels competition.

The standardization of the bacterial cell number used for susceptibility testing is of critical importance for obtaining accurate and reproducible results. The recommended final inoculum size for broth dilution is 5×10^5 colony-forming units (cfu) ml⁻¹; the appropriate cell number in agar dilution experiments is set at 10^4 cfu per spot.

Higher inocula can lead to an increase in the MIC particularly if the tested bacterium produces an enzyme capable of destroying the antibiotic. An inoculum effect is frequently seen when testing β -lactamases that are able to inactivate β -lactam antibiotics²¹. Lighter inocula than recommended may give artificially lower MICs. Use of inocula with $<5 \times 10^5$ cfu ml⁻¹ in broth micro dilution can lead to false-susceptible results as described for the detection of methicillin resistance in *S. aureus* and for resistance to certain β -lactams in β -lactamase overproducing *Klebsiella oxytoca* isolates²².

A fresh pure culture should be used for the preparation of the inoculum. To avoid the selection of an atypical variant clone, bacteria from four to five normal-appearing colonies are taken to prepare a bacterial suspension with a density equivalent to 10^8 cfu ml⁻¹, which is later used for inoculation.

Several options are available for the generation of the bacterial suspension (direct colony suspension into liquid and growth methods using either fresh or overnight cultures). The density of the cell suspension can be assessed spectrophotometrically for testing a small number of different bacterial isolates ($n < 5$). For a larger number of different bacterial isolates ($n < 5$) to save time, a turbidity standard can be used as a visual yardstick. Comparison between the standards and the turbidity of the bacterial suspensions will in fact point the researcher toward the appropriate dilution for the suspension. The turbidity of a so-called McFarland 0.5 standard is equal to $1-2 \times 10^8$ cfu ml⁻¹.

The MIC value does not give an indication of the mode of action (cidal or static) of the antimicrobial agent. Within the MIC well or tube or on the agar plate with no visible growth, there may still be viable cells if the drug had a bacteriostatic effect on the bacterial species tested. Growth may resume after the removal of the drug. Alternatively, there may be partial inhibition resulting in impaired and reduced growth

Annual Report 2021-2022

PARENT FEEDBACK

An annual survey was conducted to assess the satisfaction of parents regarding the services of the college. Each year we ask parents to complete a feedback form to gain an insight into how college could improve on various parameters.

The feedback form includes 10 (Ten) important parameters for taking the feedback right from College, Teaching-Learning, Academic, Curriculum, Admission procedure, Educational resources, faculties, administration, library facilities and other facilities etc. The feedback were taken from parents, the report was made on the basis of questionnaire provided on Google form. As many as 10 questions were asked to the parents on the various aspects. Total 96 responses were received from the parents and same is discussed below.

Feedback form Link of Google form for Parent Feedback is provided below.

<https://forms.gle/cfp5V5jBpZHhrUoG9>

This Parent feedback was taken for 2021-22 sessions. 96 responses were received on Google form in which 10 questions were provided. All MCQ type questionnaires were made for feedback. This questionnaire was posted as Google form on whatsapp groups of parents. The graphical representation from Google form summary sheet shows the question wise responses. Feedback was sorted and the opinion obtained for each parameter is represented as percentage of total number of feedback response obtained for that parameter represented in parentheses.

Annual Report 2021-2022

ALUMNI FEEDBACK

The feedback form includes 18 (Eighteen) important parameters for taking the feedback right from College, Teaching-Learning Academic, Curriculum, Admission procedure, Fee structure, Educational resources, faculties, administration, laboratory facilities, library facilities, other facilities and their present occupation etc. The feedback were taken from alumni, the report was made on the basis of questionnaire provided on Google form. As many as 18 questions were asked to the student on the various aspects. Total 50 responses were received from the students and same is discussed below

Feedback form Link of Google form for Student Feedback is provided below.

<https://forms.gle/UkN9MGDe7M31LPaVA>

This Alumni feedback was taken for 2021-22 sessions. 50 responses were received on Google form in which 18 question were provided. All questionnaires were made for feedback. This questionnaire was posted as Google form on whatsapp groups of Alumni and passout students or on their Mail IDs. Data was collected by sending Google form to the students of various courses.

Total 50 responses have been collected from the student, out of which 88 % responses were from science and 12 % from commerce faculty students. The 07 students working in different field as assistant or officer. The graphical representation from Google form summary sheet shows the course-wise classification of student responses. It was noticed that, B.Com. B.Sc., M.Com. and M.Sc. Courses were the major contributories of the survey.

EXIT FEEDBACK on Infrastructure and facilities

The feedback from the students exiting from the institution after spending three years in institution were taken. The feedback form includes 15(fifteen) important parameters for taking the feedback right from Infrastructure, laboratory facilities, library facilities, parking, drinking water facilities etc. The feedback were taken from final year students of our college, the report was made on the basis of questionnaire provided on google form. As many as 15 questions were asked to the student on the various aspects. total 398 responses were received from the students and same is discussed below

Feedback form Link of Google form for exit Feedback is provided below

<https://forms.gle/CfyzHzvTJe84PSB47>

This exit feedback was taken from the final year students of B.Sc, M.Sc, B.Com, M.Com, B.A. of 2021-22 session.

398 responses were received on Google form in which 15 question were provided.all MCQ type questionnaire was made for exit feedback on Infrastructure and facilities. this questionnaire was posted as google form on whatsapp groups of Final year students or on their Mail IDs. Data was collected by sending Google form to the students of various courses. total 398 responses have been collected from the student, out of which 24.1 % responses were from science, 75.1% from commerce faculty students and 0.3% from Arts students. The graphical representation from google form summary sheet shows the course-wise classification of student responses. It was noticed that B.Com. M.Com and B.sc, Courses were the major contributories of the survey. 49.7% responses were received from B.Com. 23.9 % responses were received from M.Com. students, 17.3 % responses from B.Sc and 8.3% responses were recorded from M.Sc.students.

Question wise responses (Figure in %)

Sr. No.	Questionnaire	Excellent	Good	Average	Poor
1.	Cleanliness and maintenance of college premises	33.2	56	7.3	3.5
2.	Cleanliness of classrooms and laboratories.	33.7	52	10.8	3.5
3.	Admission Procedure	39.2	46.2	11.6	3
4.	Behavior of office staff and non teaching staff.	41.5	48	7.3	3.3
5.	Library Facilities (Availability of Books, Newspapers, Magazines, Journals. etc)	33.7	49.7	12.8	3.8
6.	Behavior and Attitude of library staff	31.2	56.8	9	3
7.	Laboratory facilities.	32.9	52.5	11.1	3.5
8.	Our Grievances are redressed	30.4	52.3	12.8	4.5

PRINCIPAL
Dr. P. G. Bhojar Arts, Comm.
& Science College, SELOO

	/ problems are solved well in time				
9.	Computer, Internet and Wi-Fi Facilities	24.6	44.5	18.6	12.3
10	Availability of Sport ground for indoor and outdoor games	27.9	51.3	13.6	7.3
11	Availability of Clean drinking water in college campus	27.4	52.3	13.3	7
12	Canteen Facility(Cleanliness and quality of food items)	24.4	51	13.8	10.8
13	Toilets / washrooms are clean and properly maintained	26.4	50.5	16.6	6.5
14	Separate boys and girls common room is available.	32.9	50.8	12.8	3.5
15	Availability of Parking Facilities	31.9	50.8	12.6	4.8

Corrective action Taken-

For questions with poor remarks necessary action have been taken after discussion with principal. Most suggestions were on internet facility, sport ground, cleanliness of wash rooms, canteen facilities, parking facility. Feedback Committee forwarded the issues related to this to the college principal and administration.

1. For average response on parking facilities to the students, the necessary action will be taken, now separate parking slot for students parking is made available for students. The work is under the process.
2. The office staff members are advice to be more students centric in their approach.
3. For responses on internet facilities at college, the necessary action have taken, now in college high speed internet facilities are installed and internet cables are installed in all departments.
4. For drinking water facilities, college already have installed two water cooler units. The principal sir directed the pions for regular maintainace and cleanliness of water tanks.
5. Canteen facility is made available for students and teachers in college campus. good quality items, tea, coffee, snack are available in college canteen.
6. College appointed 1 sweeper for regular cleaning of toilets and washrooms.

Annual Report 2020-2021

PARENT FEEDBACK

An annual survey was conducted to assess the satisfaction of parents regarding the services of the college. Each year we ask parents to complete a feedback form to gain an insight into how college could improve on various parameters.

The feedback form includes 10(Ten) important parameters for taking the feedback right from College, Teaching-Learning, Academic, Curriculum, Admission procedure, Educational resources, faculties, administration, library facilities and other facilities etc. The feedback were taken from parents, the report was made on the basis of questionnaire provided on Google form. As many as 10 questions were asked to the parents on the various aspects. Total 34 responses were received from the parents and same is discussed below

Feedback form Link of Google form for Parent Feedback is provided below.
<https://forms.gle/m1aPCQkXBzHDGso88>

This Parent feedback was taken for 2020-21 sessions. 34 responses were received on Google form in which 10 questions were provided. All MCQ type questionnaires were made for feedback. This questionnaire was posted as Google form on whatsapp groups of parents. The graphical representation from Google form summary sheet shows the question wise responses. Feedback was sorted and the opinion obtained for each parameter is represented as percentage of total number of feedback response obtained for that parameter represented in parentheses.

Annual report 2020-21

EXIT FEEDBACK on Infrastructure and facilities

The feedback from the students exiting from the institution after spending three years in institution were taken. The feedback form includes 15(fifteen) important parameters for taking the feedback right from Infrastructure, laboratory facilities, library facilities, parking, drinking water facilities etc. The feedback were taken from final year students of our college, the report was made on the basis of questionnaire provided on google form. As many as 15 questions were asked to the student on the various aspects. total 196 responses were received from the students and same is discussed below

Feedback form Link of Google form for exit Feedback is provided below

<https://forms.gle/gU3SP9KNXoTzZZge6>

This exit feedback was taken from the final year students of B.Sc, M.Sc, B.Com, M.Com, B.A. of 2020-21 session.

196 responses were received on Google form in which 15 question were provided.all MCQ type questionnaire was made for exit feedback on Infrastructure and facilities. this questionnaire was posted as google form on whatsapp groups of Final year students or on their Mail IDs. Data was collected by sending Google form to the students of various courses. total 196 responses have been collected from the student, out of which 48% responses were from science, 40.8% from commerce faculty students and 11.2% from Arts students. The graphical representation from google form summary sheet shows the course-wise classification of student responses. It was noticed that, B.A., B.Com. and B.sc, Courses were the major contributors of the survey. 47.4% responses were received from B.Sc. 35.7% responses were received from B.Com. Students, 11.2% responses were recorded from B.A. students and 5.5% from M.Com students.

Question 1 in google form was on Cleanliness and maintenance of college premises. It was noticed that out of 196 responses, 72 (36.7%) students have responded as excellent, 104(53.1%) students has given 'good' as remark. 7.7% students responded as average to the question and only 2.2% students have said cleanliness and maintenance of premises was poor.

Question 2 in google form was on Cleanliness of classrooms and laboratories. It was observed that, 69(35.2%) students responded Excellent, they have said that the classrooms and laboratories are clean.106(54.1%) students have responded as good for the question on clean laboratories. Whereas, 16(8.2%) students responded as average and only 2.5% of them have said the poor.

the responses of the students on behavior of office staff and non-teaching staff. It was found that, 66(33.7%) students have given excellent remark. They said that behavior of office staff and non teaching staff, and responded as Excellent. 105(53.6%) students have responded that

the behaviour of office staff and non-teaching staff is Good. It was noticed that, 10(5.1%) students have responded the question as poor.

on question on Library Facilities at the college (Availability of Books, Newspapers, Magazines, Journals. etc). 70(35.7%) students have given excellent remark. 104(53.1%) students said that the library facilities are very good in college, 16(8.2%) students responded as average library facilities.

Question on Laboratory facilities was responded by 196 students. Out of these 59(30.1%) students have said that the laboratories facilities are excellent, 104(53.1%) students have given Good remark, 28(14.3%) students said that laboratory facilities are average and only 5(2.6%) students responded that the laboratory facilities are poor.

Question 8 was 'Grievances are redressed / problems are solved well in time'? only 23.5% students responded excellent, 50.55% students responded good and 19.9% students answered the question as average.

On question on Computer, Internet and Wi-Fi Facilities provided in college, 18.9% students responded excellent. 42.3% students answered good. 18.4% as average and 20.4% responed poor.

'Availability of Sport ground for indoor and outdoor games' for this question 23.5% students answered this the question as excellent sport facilities are provided at college, 48% students responded the question as good, 18.4% students responded average and 10.2% students responded the question as poor.

Question 11 was on availability of Clean drinking water in college campus. 23.5 students have given excellent remark, 50% students said that drinking facilities at college are good, 13.3% students responded average and 13.3% students responded the question as poor.

on this question of Canteen Facility at college 16.3% students responded excellent. 44.9% students given good remark, 18.8%students responed the question as average canteen facilities at college, 19.9% responded poor remark.

Question 13 was on cleanliness of toilets / washrooms, 25.5% students responded the question with excellent remark, 47.4% students said that the cleanliness of toilets and washrooms were good, 15.3% students responded average and 11.7% students responded the question as poor.

On question of Separate boys and girls common room is available. 33.2% students responded the question with excellent remark, 46.4% students said that the cleanliness of toilets and washrooms were good, 12.8% students responded average and 7.7% students responded the question as poor.

Question 15 was on availability of Parking Facilities at college. 30.6% students responded that excellent parking facility at college campus, 53.1% students given good remark.

Corrective action Taken-

For questions with poor remarks necessary action have been taken after discussion with principal and college management. For average response on internet facilities at college, the

necessary action have taken, now in college high speed internet(100MBPS) facilities are installed and internet cables are installed in all departments.

For question 11 on drinking water facilities, the necessary action have been taken, now second water cooler with water filter is installed in campus.

Canteen facilities are also improved in college campus, due to covid-19 lockdown the canteen business is highly influenced. But good quality items, tea, coffee, snack are available in college canteen.

Regular teaching

Support to student work

Please recruit knowledgeable and sensible teaching staff who can teach students well and make sure your library atleast open for student because whenever we came to library, librarian will be on holiday or the other lady who sit in library she will be on her lunch break at any time of day thank you.

Sport ground and another program

No good canteen no sports only study
Add Sports period
Few teacher have very attitude Behaviour

Institute for healthcare improvement . Develop professional knowledge and skills.

Drinking watar. Parking facilitiea .sport ground

All are good and excellent.kp it up

All good

Good quality and good facility nice teacher staff

Any think is ok but all will be progress any time.

Please provide good education

Yes , canteen facility or sport ground

Maintain cleanliness and greenery environment

None of above

All be ok but progress is cantinue

I think college must need to decrease our admision fees ..because every student can't paid this ,students which is the student unable to pay this fees. All other management is good .

All is ok but progres be cantinue.

Discipline

Nice

Everything is between good and average 👍

Canteen facility are not good....

canteen facility are not a good

No not yet

the institute of college is good and teacher staff or administer techer staff will be good the teacher learning about Quality are very good and the most problem will sort out in their teacher staff thanku so much sir and mam will be best teaching we are student

Need more laboratory instruments

Need more instruments in laboratory..😊

No any complaints about college every staff of teachers excellent behavior with students.so i am very happy to completed graduation in this college.

No ..all things are just perfect

also visit a company outside of the health care industry to get new ideas. Some health plans, for example, have learned how to improve their call center ...

All the people of my college are very good, they read very well and we have online classes everyday.

One Xerox machine in clg special collage students

Vidhya Bharti College

Vidya Bharti College

Hhh

Yes they are good

All things are good

More books required in library

There are no facilities of wifi...

Improvement

No Answer

If students have any interest, then career may help them with their problems.

Colg library not specific hall in premises change the hall

Sufficient

Institute need to improve their parking facility and canteen for students and also main is clear the campus ...

No ans

Very good not a change

All is well

Fees very high

Improve all laboratory facilities, cleanliness

Toilet washroom clean

Library

Everything is better

Everything is good

Everything is perfect nothing to change

Everthing is good

Every Thing is Good...

Every thing is perfect .

All above better

Everything is Perfect
