Best Practices of the Institution

Best Practice No.2

Bird Conservation through Artificial Birds' Nests and Provide Feedings

Goal:

A bird's populations are currently declining due to pollution, cutting trees and hunting, etc In order to increase the population of birds and conservation of these species to provide nests, and food. Through this practice, institution wants to conserve birds in and around seloo village.

The context:

The house sparrows that one's chirped around in large numbers are now spotted rarely. It is due to high rise buildings, lack of greenery and radiation from cell phone towers. There is a shortage of feed too as agricultural land has been replaced with buildings. Such changes affect the breeding efficiency of the birds which results in declining their number.

The Practice:

In order to increase the population of birds and providing artificial nesting, our institution has carried out a project with the help of NSS students and Department of Zoology. During the five years, more than hundreds of artificial nests have been placed on the trees of around the College campus and in and around Seloo village.

Through this practice, Institution has taken initiatives to make artificial bird's nests and placing them at various places (trees) and providing feeding (grains) to them.

For this practice financial resource was generated from the institution Rs.20,000/- and Rs.15,000/- was collected from the staff members and selling of old newspapers, respectively. Students and staff collected the food grains which are used to feed the birds at specific feeding places.

Evidence of Success:

Through this practice, birds population are increased by getting artificial nest, our Zoology Department is monitoring to this practice to maintain their population by giving them food regularly with help of staff, NSS students and Alumni Association. Our Zoology department got award of appreciation from Nagar Panchayat, Seloo and Nature Conservationists.

Problems faced:

The main problem of this practice is financial support, it needs lots of money to make artificial birds nest, suitable place to put it, and daily monitoring. Our college gets very less time to monitoring theme and feed them regularly. But due to all problems, we created a committee to monitoring and feed regularly as well as to solve the financial support by the cooperation of staff and Alumni Association.

विद्यार्थियों ने पंछियों के लिए बनाए कृत्रिम घोंसले

सेलू (सं). विद्याभारती महाविद्यालय ने स्वतंत्र अभिमुख व पर्यावरण पुरक पाठ्यक्रम के अन्तर्गत सेलू में आयोजित एक उत्कृष्ट कार्यक्रम आयोजित किया है। इस कार्यक्रम के तहत महाविद्यालय ने इस वर्ष 'कृत्रिम घोंसले' का आयोजन किया है। इस उद्देश्य के तहत पंछियों के लिए कृत्रिम घोंसले तैयार कर महाविद्यालय परिसर में लगाए हैं।

कृत्रिम घोंसले, नष्ट होनेवाली जंगल सभ्यता, बढ़ती शहरीकरण व प्रदूषण के कारण पंछियों का प्राकृतिक आवास नष्ट हो रहा है। जिससे महत्वपूर्ण पंछी प्रजातियाँ खतरे में हैं।

जिसके गंभीर परिणाम भुगतने पड़ सकते हैं। इस समस्या पर मातृ करने के दृष्टिकोण से महाविद्यालय के प्राणीशास्त्र विभाग द्वारा यह उपक्रम चलाए जाने की जानकारी डा. आशीष टिपले व डा. करुणा गणेश्वर ने दी। इस दौरान प्राचार्य डा. संजय एस. कानोडे ने भी विचार रखे। इस पंछी संरक्षण व संवर्धन उपक्रम अंतर्गत डा. खुशाल पडाडे, डा. सिद्धार्थ भागदिवे, डा. वैभव पिपले, डा. विशाल पाटील, डा. कमील खान, डा. विभाग निम्नोमें उपस्थित थे।

Best Practice: - "Birds Conservation through Artificial Bird Nests and Provide Feedings"

Annual Report

Session – 2023-24

During this session Artificial bird nests, which were installed last year at different places, were observed by college students. The birds like house sparrows, Robins prepared their nests in these artificial nests. These birds laid their eggs in nests nurtured their babies. During summer we also kept water source near their nests. New 15 bird nests were sold to students and outsiders. The birds in college premises were fed in bird restaurant, which is installed in college botanical garden.
