DECENTRALIZATION AND PARTICIPATIVE MANAGEMENT

As per the Maharashtra Public University Act 2016, Local Management Council (LMC) has been replaced with College Development Committee (CDC). Establishment of College Development Committee is the harbinger of greater interest of institute with the stakeholders. It has helped the college administration to develop novelty through the process to bring overall development in the departments like academic and administration. Decentralization through CDC has been instrumental for everyone to become part and parcel of the system. Accordingly, College administration has brought changes in the functioning of various departments and made participant end users a part of the development.

In fact this encouraging environment makes teachers take forward the vision developed by the management through various committees. Teachers are made to spearhead various committees to run the college more effectively and efficiently. Committees like the Examination Committee, the Admission Committee, the Library Committee, Student Development Committee and the Cultural Committee and many more work in the sync with the vision of Principal and Management. College NSS Unit is another fine example of making students play active participatory role in developing ideal society. Even the Sports department helps shaping personality of the students to face the challenges of world.
