as the most critical skills in the current global job market especially in the fast moving era of technology. These skills include Personal Interviews, SWOT (Strength Weakness Opportunity Threat) Analysis, Writing & Communication skills, Resume Writing, Group Discussions, Report writing and Presentation Skills. This concept received an overwhelming response as the students registered. The session on communication and writing skills enlightened the students about the importance of effective communication and spoken dialect in the corporate filed. SWOT analysis session helped the students to identify their strengths and weaknesses while building the techniques to improve them. An insightful session on group discussions was also conducted. The techniques of resume writing were also discussed to great extent as it gave an introduction on how to build a CV.

When asked the students for their feedback, while they gained knowledge from every session, they overtly enjoyed all the sessions. This Soft Skills Development Workshop gave them the opportunity to explore new ideas and improve their personality.
